Backed by Brickworks

Local expertise. Global quality. Brickworks Building Products is one of Australia's biggest building material producers. With heritage going all the way back to one of Australia's founding brick producers, we're proud of our reputation for design, innovation and sustainability.

Life's better with brick.

—

Simple. Elegant. Timeless. There's so much more to brick than what's on the surface – and the benefits can easily last a lifetime. Here's our top ten reasons why you're making the best choice.

1

Bricks are low maintenance

Time is precious

Whatever your project – you want the results to be long-lasting and easy to maintain. As well as being weatherproof (even in Australia's harsh conditions) brick doesn't need painting or coating to maintain its aesthetics.

2

Bricks are safe and secure

You'll feel protected

For generations, human beings have felt secure with the safety and age-resistance of brick. From severe marine environments to cyclones and bushfires, brick offers an extra layer of protection for you and your loved ones.

3

Bricks are strong and durable

Always ageless

Once a brick is used in your build, it won't decay or fade and will look as fresh as the day it was laid. In fact, a brick building can be enjoyed for generations to come with minimal upkeep.

4

Bricks make a lasting style statement

Stays forever stylish

Thanks to its design flexibility, texture and colour options, brick will always be a stylish, contemporary option. Every brick in our range is carefully considered with this in mind, wherever you're building, whatever your vision.

6

Bricks act as a sound barrier

A sanctuary from sound

From between rooms to the great outdoors, bricks strength and density gives you an excellent barrier of sound insulation – protecting you from everything (including teenagers) all day and night, all year round.

7

Bricks are a thermal battery

All-year-round excellence

A home built with brick offers excellent levels of thermal comfort and lower variation of temperatures than many lightweight materials .

For you that means all year round energy efficiency – or even lower energy bills.

8

Bricks are fire-proof

Ideal for bushfire prone areas

As our climate changes, the risk of bushfires increase. If the worst happens, it's good to know that brick offers an added layer of protection with its fire resistance. Helping to protect you, your loved ones – and your home.

9

Bricks are energy efficient

Helping you save

You can do your bit for a more sustainable planet simply by using brick. Due to its thermal mass properties, brick can absorb and store heat energy, keeping your home cooler in summer and warmer in winter, reducing your energy consumption.

10

Bricks are sustainable

A healthy, natural material

With no harsh chemicals, plastics, or harmful emissions, the shale and clay that bricks are made from is naturally abundant. So you can feel good doing your bit for the planet, without doing much at all.
