BENEFITS

of ceramic roof tiles

Colour for Life Warranty
Ceramic tiles are produced using a high firing process that binds the colour applied to the tiles surface.

Vast range of colours and profiles
Bristile Roofing’s ceramic roof tiles offer the most comprehensive range of colours and finishes available on the Australian market.

Exceptional sound insulation
Roof tiles reduce external noise by up to 25 decibels which is more than twice the noise reduction achieved by other commonly used roofing materials.

Rust and corrosion free
Roof tiles are rust and corrosion resistant which means they are suitable for installation in even the harshest coastal environments.

Fire resistant
Roof tiles are ideal for use in bush fire areas because they are non combustible.

Low in embodied energy
Testing shows that ceramic roof tiles are lower in embodied energy than a number of competing roofing products.

Reduces cooling requirements
Testing of similarly coloured roofing products shows that ceramic roof tiles can reflect more heat away from your home resulting in lower cooling requirements.
10 Year Warranty

When you build with Bristile Roofing you build with confidence knowing that your roof is provided with a 10 Year Total Roof Warranty.

Strong and durable

Ceramic roof tiles must comply with strict quality standards and are actually stronger than standard concrete roof tiles.

Safe to drink

Water collected from a tiled roof is as safe to drink as water collected off most roofing materials.

Re-usable and recyclable

Ceramic roof tiles can be reused by moving them from one roof and installing them on another home without the need for further processing before reinstallation.

Repair and replacement

Because a tiled roof is composed of a large number of small pieces, damaged tiles can be removed and replaced with relative ease.
Bristile Roofing ceramic roof tiles have developed a reputation for achieving the highest quality colours and finishes of any ceramic tile in the Australian market.

Available in a variety of profiles and collection of colours, Bristile Roofing offers a range of options designed to suit your style.

**Extensive colour range**

Monotone, two tone, natural clay, and glazed colours that will suit all tastes.

**Colour for Life Warranty**

We use only the best quality ceramic materials for strong, long lasting colours that will stand the test of time.

**Profile choice**

Planum (flat), Visum3 (flat), Curvado (rounded), Medio Curva (rounded), Innova, Vienna, and Marseille distinctive styles to complement any project.

**Kiln fired**

To lock in colour for the life of the tile.
PROFILES

to enhance your home design

WARRANTIES

from Bristile Roofing

Bristile Roofing offers industry leading warranties
from a name you can trust.

Colour for Life Warranty
Ceramic Roof Tiles are offered with a Colour For Life Warranty. This means that the roof tile you buy is warranted to remain the same colour for the life of the product. No other commonly used roofing material such as concrete roof tiles or metal roofing can make claim.

10 year Total Roof Warranty
All roofs installed by Bristile Roofing are offered with a 10 Year Total Roof Warranty. This warranty states that we guarantee the roof has been installed properly and that the roof tiles and all accessory products are guaranteed against defect for a period of 10 years*.

50 year Product Warranty
Selected Ceramic Roof Tiles are offered with a 50 Year Product Warranty which means the product is guaranteed to remain structurally sound and is free of manufacturing faults for a 50 year period.

100 year Product Warranty
Selected Ceramic Roof Tiles are offered with a 100 Year Product Warranty which means the product is guaranteed to remain structurally sound and is free of manufacturing faults for a 100 year period.

The Bristile Roofing name has been proud to serve the Australian market for over three quarters of a century. In 1929 Mr Lance Brisbane established the ceramic division of our business in Perth, Western Australia. Thanks to Mr Brisbane, from whom the company took its name and the hard work of dedicated employees throughout the years, the Bristile brand grew to be synonymous with building products of the highest quality.
Originating from France, the Marseille tile offers versatility and simplicity in a classic style ceramic roof tile.

The Marseille tile continues the proud tradition of the tile maker’s craft with a tile that suits a range of architectural styles.

The combination of its sharp clean lines and natural clay colour palette result in a roof tile with a timeless look and unmistakeable style. Offering the colour longevity, strength, and durability of ceramics, the Marseille is ideal for homes of distinction.

Bristile Roofing is proud to supply La Escandella, a stunning range of European style ceramic roof tiles developed for projects of distinction. Styled in Europe, influenced by Spain and now available in Australia, La Escandella brings European style to Australian roofing.
Aesthetics and functionality are brought together in the Planum range, a collection of tiles that combines a traditional roofing material with contemporary architectural style.

Planum creates a look of simplicity and elegance with contemporary colour options developed to complement the sleek, refined shape of the tile. Due to its innovative design and size, the Planum tile is faster and easier to install. Furthermore, the highly weatherproof design means it can be applied to roof pitches as low as fifteen degrees.

The Curvado range captures a look of grandeur with a distinctively European style.

A roof tile conceived to satisfy the needs and preferences of building professionals, the Curvado offers a variety of features which guarantee enduring popularity with home builders seeking a European style.

Manufactured from the highest quality ceramic materials, the Curvado incorporates a modern interlocking design which replicates the traditional pan and cover tile that has been a hallmark of European and Mediterranean architecture for centuries.
Above: Curvado Galia
For a bold, eye catching tile in colours designed to reflect your character, Bristile Roofing offers the Curvado Glazed range.

A roof tile conceived to satisfy the needs and preferences of building professionals, the Curvado Glazed tile has a variety of features which guarantee enduring popularity with home builders seeking a European style.

Manufactured from the highest quality ceramic materials, the Curvado Glazed incorporates a modern interlocking design which replicates the traditional pan and cover tile that has been a hallmark of European and Mediterranean architecture for centuries.
A new era in roofing products has arrived with the Visum3 tile from Bristile Roofing. Featuring a truly revolutionary interlocking design, the Visum3 has been designed to replicate smaller slate and ceramic tiles.

Introduced with a 20 year patent, the Visum3 provides an affordable alternative for those desiring a shingle roof. Industry leading technology enables each tile to be coloured individually with realistic pitting on the tiles surface for authenticity. Featuring a slim 9mm nose, the Visum3 achieves ultra flat laying for the ultimate shingle and slate appearance.
A roof tile used through the ages, reintroduced in colours designed for the new world.

Traditionally, this two piece tile, also referred to as ‘Mission Barrel’, was the most frequently used roof tile in Europe and in Spanish colonial buildings in the new world. Today the Medio Curva tile is used in the construction of new homes, due to the beauty and wide variety of colours available, or on existing projects to restore historic roofs to their former beauty.
What’s right for your home?

The best combination of insulation, sarking and ventilation for your home is dependent on a number of factors including location, aspect, windows and much more. A Building Designer or Architect will be able to assess your particular situation and advise what’s best for you.

**Sarking**
- Reflects as much as 95% of heat away from the home.
- Acts as a barrier to dust.
- Provides bush fire protection.
- Is a secondary barrier to water run off.
- Reduces the need for heating and cooling devices.
- Provides additional storm protection.

**Insulation**
- Significantly reduces heat transfer through the ceiling.
- Keeps your home cooler in summer and warmer in winter.
- Saves on heating and cooling energy costs.
- A cost effective way to improve your home’s comfort.

**Ventilation**
- Eliminates the hot air from the roof space in summer to help your insulation work far more effectively.
- Expels damp air in winter which can affect building structures and the effectiveness of insulation.
- Decreases the heat load on ceiling ducted air conditioning.
- Reduced energy costs.
- An inexpensive way to further improve your home’s comfort.

WE ARE

Brickworks

Brickworks Building Products is one of Australia’s largest and most diverse building material manufacturers. Under the Brickworks Building Products umbrella are some of Australia’s best known building materials brands. Our products include bricks, pavers, masonry blocks, retaining wall systems, precast concrete panels, concrete and terracotta roof tiles, timber products, terracotta façades and specialised building systems.

With a broad product portfolio and manufacturing and sales facilities across Australia, Brickworks Building Products is uniquely placed to service the demands of the building industry.

With over 1200 staff across Australia and New Zealand, we pride ourselves on our commitment to product, service excellence and our leadership position.
The product images shown in this brochure give a general indication of product colour for your preliminary selection. Bristile Roofing recommends all customers see actual product samples at a selection centre prior to making final selections.

Bristile Roofing Clay tiles are a naturally fired product and some variation in colour may occur. Small surface imperfections or glaze chipping is inherent to all clay roofing tiles. These imperfections in no way affect the performance of the tile.
