

Karri Decking

Karri is a high density and extremely hardwearing hardwood, which ranges in colours from light pinks to deep reddish browns. With an even texture and interlocking grain, Karri reflects light to give great lustre and depth to its appearance, while highlighting its natural characteristics.

A Karri deck provides the ideal look for both modern and classic homes, and is the perfect choice for large commercial projects.

Treating the timber with a suitable oil or clear stain will allow Karri Decking to retain its lively red colour with overtones from pale pinks to rich reddish browns.

Technical Information

Species	Eucalyptus diversicolor
Common Name	Karri
Origin	A native of the south-west of Western Australia
Colour	Light pink to reddish brown
Workability	Relatively easy to work with, with woodworking tools
Durability class	Class 3 in ground and class 2 above ground (CSIRO)
Hardness	9kN
Kiln Dried Density	Approximately 900kg/m ³ at 12% moisture content
Strength Group	SD2
Modulus of Rupture	132MPa
Modulus of Elasticity	19000MPa
Maximum Crushing Strength	72MPa
Grade	Selected
Sizes	65x20 Pencil Round Four Corners 85x20 Pencil Round Four Corners

The Sustainable Resource

Auswest Timbers is supplied with logs harvested and sourced from sustainably managed forests by the Western Australian Government's agency, the Forest Products Commission.

The Forest Products Commission has implemented an environmental management system that has been certified as complying with the requirements of the international standard AS/NZS ISO 14001 and in January 2009 achieved certification to the Australian Forestry Standard (AFS).

For more information about the AFS, please visit www.forestrystandard.org.au.

To further assure our customers that all timber supplied from grower to manufacturer is sustainably managed, Auswest Timbers achieved Chain of Custody certification in April 2009.
