

Hamptons

The Hamptons style dates back over 200 years, when the farmhouses on the Eastern shores of Long Island were transformed into beach homes for city-siders wanting to escape from Manhattan.

Builder Beachwood Homes

Typically, the facade of a Hamptons home would be white, which is continued throughout the interior design, decor and styling. The crisp whiteness is offset with textural decor, such as woven rugs, pops of organic colour and a coloured feature in the bathroom. The Hamptons look is perfect for anyone wanting a fresh, bright and airy style in their home.
