# Bricks and Pavers

---

# Australia's leading brick manufacturer

---

## 8 in 10 new homes are built with brick

Known for our ever-dependable products and services, Austral Bricks is backed by an exclusive 100-year warranty, so you can be confident your investment is in safe hands.

Founded in 1908, Austral Bricks have been leading the way in brick manufacturing and design for over 100 years. It is no surprise we have an enduring relationship with our customers, and we are consistently chosen by leading builders, and world-class architects and designers.

Owned and operated in Australia, Austral Bricks manufactures bricks in Australia, for Australians, designed to meet the demands of the harsh Australian climate.

Our presence extends globally, with our bricks being consistently chosen by the world's most inspiring architects and designers to construct iconic architecture everywhere from Hong Kong to Amsterdam. Plus, we have a design studio open on Fifth Avenue, New York.

Bricks have enduring style that, when backed with a 100-year warranty, is guaranteed to look stylish forever.

# Complimentary Services

---

## The inspiration and expertise you need

---

With our comprehensive series of colour and style palettes, skillfully curated from the huge range of Brickworks building materials available, you can select a thoughtful and stylish scheme for any house, whether it's cutting edge contemporary or more traditionally influenced.

Our expert design consultants can talk you through colour and style swatches in a friendly one-to-one session, helping you pick a scheme you love for your vision.

**Book your one on one colour appointment**  
Visit. [australbricks.com.au/style-inspiration](https://australbricks.com.au/style-inspiration)

## Seamlessly visualise your dream home

---

Using Artificial Intelligence and digital technology, you're now able to experience colours, forms and profiles with our online colour visualisation tool. iVisualise helps make selection seamless and simple – whether you're looking for a more traditional product, or something more contemporary.

Our new and upgraded iVisualise tool will guide you on designing for your dream home. It's all at the touch of a button.

# Bricks are designed to last

---

**Versatility in design, durability that lasts a lifetime and the highest thermal comfort, with almost no maintenance. Clay bricks and pavers from Austral Bricks tick all the boxes for homes and projects with value and sustainability in mind.**

## **Affordable Value**

–  
Brick is the only material that will continue to make you money now, and in the future. Your building material is the most important decision you will make when building your new home, so you want to be confident you are making the right choice.

## **Low Maintenance**

–  
Bricks require zero maintenance, meaning you have one less thing to worry about. Bricks don't fade, rot, rust or decay, meaning they remain completely weatherproof, durable and attractive forever without you having to lift a finger.

## **Strength and Safety**

–  
Unlike other materials, bricks are fireproof – when you build with brick, you are protecting your investment and your loved ones.

## **Energy Efficient**

–  
A home built with brick helps you do your bit for a more sustainable planet, while reducing your bills by up to 40% – win-win!

## **Naturally Sustainable**

–  
If you want a sustainable home – bricks are the only choice.  
Building a sustainable home has never been more important. There are 3 ways that building with brick will make your home more sustainable both now, and into the future:

1. Reduced household emissions
2. Bricks can be reused and recycled
3. Bricks can be carbon neutral, ask us how

## **Durability Class**

### **EXP = Exposure grade**

Suitable for use in external walls exposed to aggressive environments, such as; areas subjected to salts in the soil, adjacent material or ground water, in coastal areas exposed to attack from windborne salt spray, or retaining walls subjected to fertilisers and ground salts.

### **GP = General purpose**

Suitable for internal and external walls only when above a sheet or membrane damp-proof course and protected by an adequate coping, eaves, roof or similar top covering. These units should not be directly exposed to saline environments.

## Thin Brick

Imported from Italy & Spain

Because Thin Brick is genuine brick only thinner, it gives you more flexibility to add style and authenticity to any part of your house, reducing the cost and time that it would take for standard brick applications. From striking splashbacks to inviting outdoor entertaining areas, there's no limit to Thin Brick's range of applications inside or outside your home.

## Nelissen

Imported from Belgium

Made with an exquisite rustic texture, Nelissen bricks are sculptured pieces in themselves. In fact, due to the irregular folded grooves and exquisite colours, each is a genuinely unique work of craftsmanship. Created using a combination of age-old materials, and ultra-modern kiln techniques, Nelissen's multi-shade faces and rich velvety sand surfaces are the result of years of dedicated research and development.

## Domain

Made in VIC

Confident, subtle and robust, this classic favourite is inspired by gentle sunlight through trees, and it's this gently filtered light and mid-tone contrast that new home owners in particular are drawn to. There's a timelessness and durability attached to these bricks too, providing a welcome feeling of strength and protection.

# Remastered

Made in VIC

The Remastered style of brickworks provides the colours and textures that are often created by exposing existing brick structures. The techniques employed to make this collection allow for a vintage effect to be created in new commercial and residential architecture.

Distressed forms and blended colours provide a finish similar to recycled bricks, but with the guarantee of no contaminants, greater strength and clarity around embodied energy.

## Colours

# Mortex

Mortex is a factory manufactured, quality assured premixed M4 rated mortar solution. Its consistency can save labour time, increase efficiency, remove the need for on site blending, and it is compliant with AS3700:2018. Mortex takes the guess work out of mortar blending and reduces the potential for under strength, non compliant mortar use.

## Mortar Finishes

There are four common mortar finishes and these various finishes result in different shadow lines on the wall. A raked finish will create a deep shadow in the mortar joint. This brings out the horizontal lines of the brickwork (and the vertical lines to a lesser extent) and it is the most common finish. Ironed and struck joints also create shadow lines, but these are much finer and more subtle. A flush joint doesn't allow shadow lines to form at all, giving the wall a flatter, more unified look. Using a mortar colour to match the brick will take this a step further.

Raked

Ironed

Struck

Flush

## Mortar Colours

White mortar is currently the most popular colour. This is made by mixing light coloured cement and white sand and results in a traditional brick and mortar look. Mortar can be coloured by adding powdered or liquid pigments to the mortar as it is being mixed by the bricklayer. It can also be tinted to match the brick colour, giving a very even wall colour. Please confirm with your bricklayer what their mortar colouring offering is before making your final decision.
