Delivery Information

Prices quoted are for deliveries to the Metro Area only.
 ABBTF Levy of \$1.65/000 inclusive of GST applies to all brick purchases.
 Cartage rates assume a maximum of 1 hour site work. If your delivery requires longer than 1 hour of site work additional charges will apply.
 Price on application for all country orders.
 When placing an order, quantities to be placed to the nearest pack or pallet, enquire within.
 Please ask one of our friendly staff about our clearance products.

Sale Terms and Conditions.

Prices effective from 01/04/2022 and subject to change.
Returns - Returns will not be accepted. Claims for faulty products will not be accepted once laid. No returns are accepted arising from over ordering.
Product orders - Under no circumstances shall Austral Bricks be liable for over or under ordering of product. (Whilst Austral Bricks and its employees may provide assistance in calculating quantities, it does not provide a Guarantee of accuracy and always recommends allowances for wastage, breakages and chipping).
Breakage & Chipping - Every care is taken to minimise breakage and chipping. Austral bricks and its associated companies will not accept claims for chipping and breakages Under 5% in volume of number of the delivered product.
Size Variation - The stated sizes are nominal sizes only. Size variation can occur as a consequence of the manufacturing process. In respect of specially fired products, abnormal shrinkage occurs and there can be marked size variations.
Site Damage - Austral Bricks will take as much care as possible when delivering your product. However, accidents can occur. Regrettably Austral Bricks and its associated companies will not be responsible for any damage or injury to persons, creatures or property. Please ensure our drivers have easy access.
Colour Variation - All blend bricks/blocks are sold as a blend. Because of the manufacturing process, some colour variation can occur. Clay bricks are a natural product and as such subject to colour variation. The colours shown in the brochure may vary slightly from the Actual products due to colour variances in the printing process. All endeavours are made to match the colour of pavers and bricks at Austral Bricks display Centres but some slight variance may occur. It is recommended when laying pavers or brick/blocks to work from 3 pallets at any one time.

Purchase Price - All goods are sold subject to the conditions of sale of Austral Bricks and all prices are subject to increase without notice. Unless otherwise agreed in writing all sales are made by the sellers at the sellers ruling price at time of delivery. All prior quotations will be subject to alteration accordingly.
Vanadium Efflorescence on Brickwork - Efflorescence (leaking of natural salts causing a powdery deposit which detracts from appearance) and other damage may occur if bricks are used in situations of insufficient damp or water proofing or if they are subject to abnormal water quantities eg downpipe water. For example, double leaf walls which have no roof cover should be properly capped. Austral Bricks will not be responsible for any deterioration where bricks are insufficiently damp or water-proofed or where they are subject to abnormal quantities of water.
 It is characteristic of all the light burning clays from which bricks are manufactured by Austral Bricks in South Australia that they contain small quantities of natural salts called vanadium salts. These water soluble salts can migrate to the surface of bricks and crystallise there as moisture dries from the brickwork. The resulting efflorescence is coloured (yellow green/ brown/blue) if the salt crystallise in an acid environment. An acid environment can occur quite naturally at the surface of bricks, especially if the bricks are subject to excessive amounts of water during construction. They are colourless if the environment is neutral or slightly alkaline. The coloured efflorescence is naturally occurring and is harmless and is removable either by normal weathering processes or by simple treatments. Vanadium efflorescence does not cause any damage to the structure and characteristics of Austral Bricks, nor will the treatments approved by Austral Bricks to remove the colouring. For further information contact Austral Bricks or your Austral Bricks agent.
 Please refer to the Austral Bricks website for full terms & conditions.
