A BRAND OF
BRICKWORKS

The smarter way to build
concrete retaining walls.

Explorer

Retaining Walls

Both subtle and sleek, Explorer was crafted to blend in to any project whether commercial or residential – a gentle inclusion that would feel at ease among any architectural style. Its smooth long lines and matte finish are satisfyingly simple. Re-imagining the concrete sleeper in a slimmer profile and in panel form with 1000, 600 and 400mm sizes, meant that not only has installation become several times faster, but the ability to control the aesthetic has improved significantly.
