## New Design Iconic Reputation

—

There's something so satisfying about gazing upon an exterior that's made up of rows upon rows of clean, striking lines. Perhaps it's the connotations of comfort and character, or maybe it's the subtle simplicity of repetition that means GB Latitude creates an impression that lasts.

## The Design

—  
A true chameleon of style, its subtle perpendicular mortar joints create a feeling of continuity and clean sight lines while its angled face casts shadows that provide a sense of depth and intrigue.

## Environmentally friendly

Low in embodied energy and recyclable resulting in minimal waste.

## Surface + Colour

In the honing and secondary treating of the concrete, the natural pigment is further protected, guaranteeing the product well into the future and removing the need for ongoing maintenance.

## Design flexibility

GB Latitude can be used in conjunction with other products in the GB Masonry range to create sophisticated and flexible bond patterns.

## Strong + weather resistant

As an exposure-grade concrete product, its ability to endure the harsh Australian climate makes it the ideal choice for those interested in creating projects that are built to last.

# Specifications

—

Adaptable and flexible, GB Latitude offers genuinely unlimited scope – and is equally at home in domestic settings, or large scale public projects. All with the engineering excellence and high performance you’ve come to expect from GB Masonry.

## Colour

Whatever finish you’re looking for, the GB Latitude collection, named for their natural influences of Porcelain, Limestone, Pebble, Sandstone, Nickel and Pewter, offers an array of captivatingly modern hues that are sure to make a style statement.

Block Dimensions

Right Hand External Corner

Left Hand External Corner

Measurements shown are in mm

Specifications

Average Weight / Unit (kg)	6.24
Units/m2	-
Pack size	240
f’uc (MPa)	>15
Core Volume (%)	15
Durability Class: 40 cycle	Exposure Grade

Configurations

The GB Latitude range offers a more durable and stylish alternative to weatherboard, or, if you’re looking for a unique facade option, then the design possibilities afforded by the customisable patterns are truly endless.

Laying Configurations

Standard Bond

Peaks and Troughs Bond

Irregular Bond Pattern\*

\* Using 10.01 GB Honed blocks with GB Latitude

Irregular Bond Pattern

\*Using 10.01 and 12.01\* blocks with GB Latitude.12.01 blocks are not available in the GB Masonry Collection. These would need to be custom made.

Other finishes from GB Masonry

With a range that includes sleek Honed and Polished options, bold textured finishes in the Split Face and Rock Face ranges, along with the timeless style of our smooth finished ranges.

Polished

The Polishing process brings the soft, matte texture of Honed products to a shine. This deepens the colour of the aggregates and gives them a gem-like lustre.

Ranges: GB Stone

Honed

The honing process grinds 2-3mm from the block surface producing a matte exposed aggregate finish.

Ranges: GB Honed , GB Aspect Honed + Breeze Blocks

Aspect

Three striking lines combined with the block’s honed finish create a unique look that is ideal for creative designs.

Ranges: GB Aspect Honed

Rock Face

The rock face or bolstered finish results from a unique process called bolstering which chips the edges of the block face to give it a rocky appearance.

Ranges: GB Sandstone Rock Face

Smooth

A finely textured finish created through the standard moulding process.

Ranges: GB Smooth

Veneer

Contemporary colours, long slimline shape, and lustrous sawn and split face finishes combine to create a distinctive style.

Ranges: GB Veneer Split Face + GB Veneer Sawn Face

Split Face

The splitting process used to create these blocks produces a bold textured exposed aggregate finish.

Ranges: GB Split Face + GB Veneer Split Face

Backed by Brickworks

Local expertise. Global quality. Brickworks Building Products is one of Australia’s biggest building material producers. With heritage going all the way back to one of Australia’s founding brick producers, we’re proud of our reputation for design, innovation and sustainability.
