

Riviera™

CLAY PAVERS

Timeless, memorable and beautiful moments, let Riviera™ take you there.

🕒 Monte Carlo (Body Paver and Bullnose)
300 x 300 x 40mm

Space for the family

Take time out with your family this summer and experience the great outdoors on Riviera Clay Pavers.

The Riviera Clay Pavers has been developed to be the ideal multi-purpose paver around the home. Riviera's large format pavers create a livable outdoor space for entertaining or some well deserved quiet time. The earthy tones and simplistic design make these pavers the first choice for outdoor living.

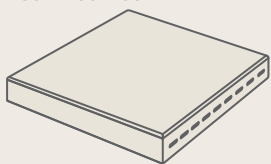

Riviera Clay Pavers are available in six earthy colours inspired by the natural hues of the Australian landscape. These warm natural tones coordinate beautifully with your existing surroundings and enhance the experience of outdoor living.

With four flexible sizes, you can create a space you will be proud of.

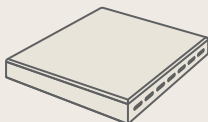

Size Range

④ 400 x 400 x 50mm

④ 300 x 300 x 40mm

New Sizes

④ 450 x 225 x 40mm

Space to be yourself

Everyone deserves a little space to enjoy life's pleasures be it on your own, with family or friends.

The Riviera Clay Pavers was designed to complement all lifestyles and decor. Riviervas' large format square pavers open up the smallest courtyard and look equally at home in large open spaces. The simple symmetry and subtle tones will remain stylish for generations to come.

Excellent slip resistance and salt safe qualities make Riviera Clay Pavers the ideal choice for use around salt-chlorinated pools and high traffic entertaining areas. Available in four flexible sizes designed to create any backyard into a creative work of art you will be proud of.

⌚ 400 x 300 x 50mm

Why Choose Clay Pavers?

Colours that last

Clay paver colours won't fade or change over time. Being kiln fired the colours are locked in.

Excellent slip resistance

Our clay pavers meet or exceed the Australian Standards requirements for slip resistance. You can't ask for better than that.

Kiln fired for strength

Clay pavers are kiln fired at over 1000°C to lock in their durability and strength.

Salt safe

Riviera pavers are suitable for use around salt chlorinated pools and in saline environments.

Please Note: For a more accurate representation of colour we recommend viewing at least a square meter of paving to experience the full aesthetic colour, texture and originality of each product.
