every angle

## Seamless Creativity

–

SK1N is a unifying design system that adapts to your architectural vision and the environment it lives within.

Characterised by genuine versatility and simple installation, SK1N is the perfect solution for both expressive creativity and streamlined efficiency.

# Crafted by San Selmo

—  
San Selmo captures the beauty of Italy – inspired, rustic and charming. Generations from this family owned business have learned to craft and perfect clay products with hues that transition from light to dark; tactile finishes; and sizes from conventional to distinctive.

Characterised by a surface finish that is crafted by hand, San Selmo develops unique products that vary from one batch to the next, meaning each product has its own unique character. By blending different clays, sands and temperatures of the firing process, San Selmo develops products that suit external and interior facades of buildings, giving chromatic intensity and soft structure to each project.

Now exclusively available from Brickworks as part of our International portfolio.

## The Design

–

Developed in Italy – SK1N's DNA is intimately connected to timeless and iconic European craftsmanship.

Combining the enduring beauty of terracotta with contemporary ceramic techniques and colours, it has a range of imaginative applications, from unique facades to distinctive roof lines – all united in one seamless material expression.

# Features

Timeless colours, decades of durability, and with a strong horizontal design emphasis, SK1N combines thoughtful design with extraordinary versatility.

Here's what makes SK1N so unique:

### Adaptable application

SK1N's dual-aspect functionality makes it ideal for vertical and sloping gable roof applications.

### Bold colour for life

Offering seven highly appealing colours, SK1N's original palette of fired clay tiles is inspired by nature.

### Location flexibility

Offers outstanding design potential for urban or rural projects.

### Bespoke finishes

Each SK1N tile is truly unique due to diversity of colour and texture.

### Non-combustible

SK1N tiles are made from fired clay so they are non-combustible.

### Natural

Made from natural materials, SK1N emits no VOCs.

### Sustainably thoughtful

SK1N is entirely recyclable and reusable.

### Rain screen

Rear ventilated facade offers great thermal benefits.

### Easy installation

SK1N is fast, secure, and genuinely uncomplicated to install.

### Enduring quality

With a 100 year warranty, SK1N tiles are colourfast, durable and low maintenance.

## Colours

–  
Inspired by natural materials, our selection of seven colours are a combination of tones, hues and glazes to ensure each tile is an individual work of art in itself.

- Tesino
- Potenza
- Alento
- Livenza
- Savio
- Chienti
- Piave

# Colours

—

---

## Alento

—

Dappled sunlight on silver sands was the inspiration for the tactile and relaxing tones embodied in each tile – perfect for beachside projects, but at home anywhere.

---

## Livenza

—

Elegant and gentle, this tranquil grey lifts solid forms to give the impression of gently floating planes.

---

## Savio

—

A subtle grey surface wash effect gives this classic terracotta coloured tile a delightfully softer and subtly variable tone.

---

## Tesino

—

Vibrant and welcoming, this classic terracotta orange colour creates a delicate colour plane.

## Potenza

—

A warm, inviting, and comforting classical terracotta tone that originated in Sienna, Italy during the Renaissance.

## Chienti

—

Chienti's light brown tone is reminiscent of aged natural wood, with a highly appealing and timeless, natural feel.

## Piave

—

A rich, earthy charcoal tone which works across cool and warm colour schemes to create a subtly variegated impression.

# Profiles

SK1N is available in two distinct profiles giving you the flexibility to create your own unique finish and style.

## L Profile

The L profile allows the product to sit flatter across the facade and results in subtle lines running across the facade.

Dimensions	500x210x35 mm
Tiles / m <sup>2</sup>	11.8 pcs
Weight per tile	3.2kg
Weight / m <sup>2</sup> <small>(Inc SK1N top hats)</small>	41.2kg
Weight / m <sup>2</sup> <small>(Inc 38x38mm F5 timber batten)</small>	43.1kg
Recommended overlap	40mm
Horizontal batten distance	170mm

## U Profile

When using the U profile, the tile's nose sits more pronounced and creates greater emphasis on horizontal lines running across the facade.

Dimensions	500x210x35 mm
Tiles / m <sup>2</sup>	11.8 pcs
Weight per tile	3.8kg
Weight / m <sup>2</sup> <small>(Inc SK1N top hats)</small>	48.3kg
Weight / m <sup>2</sup> <small>(Inc 38x38mm F5 timber batten)</small>	50.2kg
Recommended overlap	40mm
Horizontal batten distance	170mm

# Technical Guide

SK1N is suitable for any type of building envelope; from walls to sloping gable roofs. The SK1N tiles are installed onto horizontal aluminium top hats or timber battens with each tile firmly screwed or fixed. All horizontal joints are overlapped, while vertical joints are variable for maximum visual effect. SK1N is a rear ventilated rain screen cladding system designed to be installed over a waterproofed structure.
