BRISTLE ROOFING | PLANUM COCOA, AUSTRAL MASONRY | TERRE MARIGOLD

*The blush hues of this soft and feminine style carry undertones of caramels and creams combined with the understated luxury of warm metallic and soft terrazzo.*

*A whisper of creamy whites flow through this palette to keep the style chic and timeless. Shapes are simple and stylised, with smooth, matt finishes that mimic the softness of petals and let the colour steal the show.*

*This is a theme that will suit any room, creating an inviting sense of calm. As at home in open plan living as it is in a master suite, it can extend outdoors as it captures and softens light perfectly. It's even perfect for an outdoor space that will capture and soften light perfectly.*
