Discover More

Inspiration doesn't always come naturally, and your home is going to be there for a long time, so it's worth taking your time to enjoy the creative process. From visiting us at our Design Studios, and exploring our iVisualise Tools online, to chatting in person or over the phone, we're here to help.

Discover

Brickworks Design Studios

Your local Brickworks design studio is a one-stop destination for advice and inspiration, where you can experience the quality of our product range first-hand. Our experienced consultants will guide you through the range and help you find the best possible solution for your project – within your budget.

Create

iVisualise Tools

Using artificial intelligence and digital technology, you're now able to experience colours, forms and profiles with our online colour visualisation tool. iVisualise helps make selection seamless and simple – whether you're looking for a traditional product, or something more contemporary.

Learn

Colour Consultations

Building or renovating a home is a major investment – and it should be an enjoyable experience for you. We can help with a one-to-one colour consultation where our experts can guide you on colour trends, the right fit and style, and ideas that will give you a genuinely individual look.

Terms and conditions

Delivery charges - Delivery charges will vary based on your delivery location, order quantities and various other factors which is why they are priced on application. A delivery surcharge of \$214.50 including GST applies for clay bricks, pavers and terracotta wall cladding under 4 pallets. A delivery surcharge of \$135.96 including GST applies for orders of masonry blocks, concrete sleepers, retaining wall blocks and stone, granite, porcelain marble, & concrete pavers under 3 tonne. Waiting time after an hour will be charged @ \$110 per hour.

Additional Charges - The brick prices on this list will be increased by \$1.65 per thousand to include an Australian Competition and Consumer Commission Authorised Bricklayer Training Levy. Additional charges may apply and will be advised with your quote.

Returns - Returns will not be accepted. Claims for faulty products will not be accepted once laid. No returns are accepted arising from over ordering.

Pallets - All pallets remain the property of Brickworks and must be returned but are NON REFUNDABLE.

Product orders - Under no circumstances shall Brickworks be liable for over or under ordering of product. Whilst Brickworks and its employees may provide assistance in calculating quantities, it does not provide a Guarantee of accuracy and always recommends allowances for wastage, breakages and chipping.

Breakage & Chipping - Every care is taken to minimise breakage and chipping. Brickworks and its associated companies will not accept claims for chipping and breakages Under 5% in volume of number of the delivered product.

Size Variation - The stated sizes are nominal sizes only. Size variation can occur as a consequence of the manufacturing process. In respect of specially fired products, abnormal shrinkage occurs and there can be marked size variations.

Site Damage - Brickworks will take as much care as possible when delivering your product. However, accidents can occur. Regretfully Brickworks and its associated companies will not be responsible for any damage or injury to persons, creatures or property. Please ensure our drivers have easy access.

Colour Variation - All blend bricks/blocks are sold as a blend. Because of the manufacturing process, some colour variation can occur. Our ranges are composed of natural product and as such subject to colour variation. The colours shown in the brochure may vary slightly from the Actual products due to colour variances in the printing process. All endeavours are made to match the colour of pavers and bricks at Brickworks display Centres but some slight variance may occur. It is recommended when laying pavers or brick/blocks to work from 3 pallets at any one time.

Purchase Price - All goods are sold subject to the conditions of sale of Brickworks and all prices are subject to increase without notice. Unless otherwise agreed in writing all sales are made by the sellers at the sellers ruling price at time of delivery. All prior quotations will be subject to alteration accordingly.

Vanadium Efflorescence on Brickwork - Efflorescence (leaking of natural salts causing a powdery deposit which detracts from appearance) and other damage may occur if bricks are used in situations of insufficient damp or water proofing or if they are subject to abnormal water quantities eg downpipe water. For example, double leaf walls which have no roof cover should be properly capped. Brickworks will not be responsible for any deterioration where bricks are insufficiently damp or water-proofed or where they are subject to abnormal quantities of water. It is characteristic of all the light burning clays from which bricks are manufactured by Brickworks that they contain small quantities of natural salts called vanadium salts. These water soluble salts can migrate to the surface of bricks and crystallise there as moisture dries from the brickwork. The resulting efflorescence is coloured (yellow green/ brown/blue) if the salt crystallise in an acid environment. An acid environment can occur quite naturally at the surface of bricks, especially if the bricks are subject to excessive amounts of water during construction. They are colourless if the environment is neutral or slightly alkaline. The coloured efflorescence is naturally occurring and is harmless and is removable either by normal weathering processes or by simple treatments. Vanadium efflorescence does not cause any damage to the structure and characteristics of Brickworks, nor will the treatments approved by Brickworks to remove the colouring.

For further information contact Brickworks or your Brickworks agent. Please refer to the Brickworks website for full terms & conditions.
